**5.5 Normal Payment Procedure**

All application, study fees and system modification costs (except as noted below) are due in full prior to the execution of the work as outlined in this Tariff. If the anticipated costs exceed \$25,000, the Interconnecting Customer is eligible for a payment plan. At the request of the Interconnecting Customer, the Company will break the costs into phases in which the costs will be collected prior to Company expenditures for each phase of the study and/or construction including ordering materials and equipment. The payment plan will be attached as an exhibit to the Interconnection Service Agreement or relevant study agreements.

**5.6 Security and Creditworthiness**

In order for the Company to agree to any payment plan where some work may be performed in advance of payment, the Company may require the Interconnecting Customer to provide evidence of creditworthiness. In the event that Interconnecting Customer cannot provide such evidence to the satisfaction of the Company, then the Company may require the Interconnecting Customer to provide sufficient security in order to take advantage of a payment plan. Interconnecting Customer acknowledges that it will be responsible for the actual costs of the system modifications described in the attached exhibit to the Interconnection Service Agreement, whether greater or lesser than the amount of the payment security provided under this section.
